Email: Pugazhmurugan13489@gmail.com | Phone: +91 8870713489

Professional Summary

- Performance-driven IT professional with over 11 years of experience in software development, offering expertise in programming, coding, and bug fixing in complex projects.
- Extensive experience with Microsoft technologies including ASP.NET Core 8.0 Web API (C#), Angular, TypeScript, and SQL Server; proficient in design patterns like Unit of Work, Repository, and MediatR.
- Hands-on experience with Azure services: Azure App Services, Azure Functions, Azure Storage (Blob, Queue, Table), Azure Service Bus, and Azure SQL Database; utilized Azure Monitor and Application Insights for performance monitoring.
- Built microservices architecture using .NET Core 8.0 achieving 99.9% uptime; accelerated feature delivery by 40% leveraging AI development tools (Windsurf IDE, Claude AI, GitHub Copilot).
- Contributed to investment-domain projects including SBI Mutual Fund Partner, Mitra, and Darpan; experience with Billing Software, Furniture Asset Management, HRMS, CRM, Purchases and Goods Movement.
- Led migration of legacy systems using AI-assisted refactoring to reduce technical debt by 50%; implemented CI/CD pipelines with automated testing achieving 90% coverage.
- Proficient in IIS Server and Linux (CentOS 7, Nginx) deployments; experienced with PostgreSQL and SQL Server 2019 for database design including tables, views, functions, and procedures.
- Skilled in AI-assisted development including prompt engineering for code generation and debugging, AI-powered code review, and optimization using tools like Windsurf IDE and GitHub Copilot.
- AI-powered document intelligence platform (RAG) using ASP.NET Core, Angular 18, EF Core, Docker, and Azure OpenAI/Semantic Kernel — demonstrating applied initiative in Generative AI integration beyond client project scope.

Technical Skills

Cloud Platforms	Microsoft Azure (App Services, Functions, Storage, Service Bus, SQL Database, Azure OpenAI)
Languages & Frameworks	C# .NET, ASP.NET Core 3.1/8.0 Web API, Angular 8/10/12/16/18, TypeScript, Python FastAPI, Windows Forms
AI / ML Integration	Azure OpenAI, Semantic Kernel, Retrieval-Augmented Generation (RAG), text embeddings, vector search
Microservices & Gateway	Docker, Docker Compose, YARP API Gateway, JWT/OAuth2 authentication, SignalR streaming
Packages & Patterns	Dapper, EF Core, AutoMapper, Unit of Work, Repository Pattern, MediatR
Database	SQL Server 2019 (SQL, T-SQL), PostgreSQL
AI Tools	Windsurf IDE, Claude AI, GitHub Copilot, Prompt Engineering
Deployment & Tools	IIS Server, Nginx, CentOS 7, Azure Monitor, Application Insights, CI/CD Pipelines

Working Experience

- Sr. Software Developer in CTD Tech Pvt. Ltd., Bangalore (via Applied Materials) — May2023 to Nov 2025.
- Sr. Software Developer in GSR Business Services Pvt. Ltd., Bangalore (via SBI Mutual Fund) — Jan 2021 to April 2023.
- Software Developer in RMKV Fabric Pvt. Ltd., Chennai — Feb 2020 to Jan 2021.
- Software Developer in The Madras Silks India Pvt. Ltd., Chennai — Sep 2014 to Jan 2020.

Projects

Project #4 — AMAT IOMS, Nextgen

Client: Applied Materials (AMAT), Bangalore | Role: Sr. Software Developer / API Lead | Domain: Semiconductor / Manufacturing

Development and maintenance of microservices-based enterprise platform for Applied Materials (AMAT), leveraging AI development tools for code generation, testing, and optimization. Built using .NET Core 8.0 Web API, Angular 18 & TypeScript unit testing, Python FastAPI, and Azure cloud services.

- Built microservices architecture using .NET Core 8.0, Angular 18, TypeScript, and SQL Server 2019, achieving 99.9% uptime; accelerated feature delivery by 40% with AI development tools.
- Developed API design and implementation for AMAT IOMS, Nextgen, and Modulization modules.
- Increased unit test coverage from 60% to 85% using AI-assisted test generation; implemented CI/CD pipelines with 90% test coverage.
- Led migration of legacy systems using AI-assisted refactoring, reducing technical debt by 50%.
- Configured Azure Storage solutions (Blob, Queue, Table) for data management; utilized Azure Monitor and Application Insights.
- Deployed and managed applications on Azure App Services and Azure Functions; configured Azure Service Bus.
- Developed and maintained Web API using .NET Core 8.0 and Python FastAPI ensuring stability, scalability, and performance.
- Conducted database query optimization using SQL Server 2019; created stored procedures, views, and functions.
- Utilized AI tools (Windsurf IDE, Claude AI, GitHub Copilot) for code generation, review, and optimization.

Project #3 — SBI Mutual Fund Partner, Mitra & Darpan

Client: GSR Business Services Pvt. Ltd., Bangalore | Role: Sr. Software Developer | Domain: Investment / Finance

Investment domain application for SBI Mutual Fund. Built microservices architecture using .NET Core 3.1 Web API, Angular 10, TypeScript, and SQL Server 2019. Integrated third-party APIs for communication, CAMS, transactions, and KYC.

- Devised and implemented strategies for .NET Core 3.1, Angular 10, TypeScript, and SQL Server 2019 development.
- Developed and maintained new and existing modules in microservices architecture Web API .NET Core 3.1 and Angular UI.
- Created new API endpoints and integrated third-party APIs: Communication API, CAMS API, SBIMF Transaction API, KYC API.
- Researched and built appropriate code for deliverables; managed IIS Server deployment for Angular and .NET Core Web API.
- Implemented data storage using Azure Data Lake Storage Gen2 and Azure Blob Storage for analytical workloads.
- Used Dapper and AutoMapper libraries; applied Repository, Unit of Work, and MediatR design patterns.
- Conducted code review and ensured code quality standards across the team.
- Performed regular system performance analysis and database query optimization.

Project #2 — HRMS, Goods Received, Purchases & Goods Movement

Client: RMKV Fabric Private Limited, Chennai | Role: Software Developer | Domain: Textile / Retail

Internal enterprise applications for RMKV Fabric including Human Resources Management System, Goods Received Management, and Purchases and Goods Movement using .NET Core 3.1 Web API, Angular 8, and PostgreSQL.

- Developed Web API using C# .NET Core 3.1 and Angular 8 UI for HRMS, Goods Received Management, and Purchases modules.
- Deployed application on CentOS 7 and Nginx Server; created application documentation for knowledge transfer.
- Used PostgreSQL for database design including tables, stored procedures, and functions.
- Implemented Angular 8 frontend with REST API integration for all modules.
- Conducted code reviews and ensured code quality and documentation standards.
- Worked on .NET Core 3.1 microservices architecture ensuring scalability, reliability, and performance.
- Created unit tests and integration tests for API endpoints ensuring code reliability.
- Supported system maintenance, bug fixing, and performance improvement activities.

Project #1 — Billing Software, Point of Sales, Furniture Software & CRM

Client: The Madras Silks Private Limited India, Chennai | Role: Software Developer | Domain: Retail / Enterprise

Development of internal enterprise software applications including Billing Software, Point of Sales, Furniture Asset Management, Human Resources Management System, and CRM using .NET technologies, Windows Forms, and SQL Server.

- Developed Billing Software, Point of Sales, and Furniture Software using C# Windows Forms and SQL Server.

- Developed Human Resources Management System using .NET Core 2.1 Web API, Angular 6, JavaScript, HTML, CSS, jQuery, and SQL Server.
- Built CRM Bulk Mail application using .NET Core 2.1 Web API, Angular 6, and SQL Server.
- Prepared SRS documents, reports, and technical documentation per business requirements.
- Implemented, supported, and troubleshot software issues; performed system maintenance.
- Collaborated with business stakeholders to gather and refine application requirements.
- Deployed applications on IIS Server and managed release process for .NET applications.
- Conducted performance analysis and database optimization for SQL Server databases.

Academic Qualification

- Bachelor of Technology in Information Technology — Mailam Engineering College, Villupuram, Tamil Nadu — May 2014.

Personal Details

- Date of Birth: 6th June 1990
- Languages Known: English & Tamil
- Address: Bangalore - 560068
